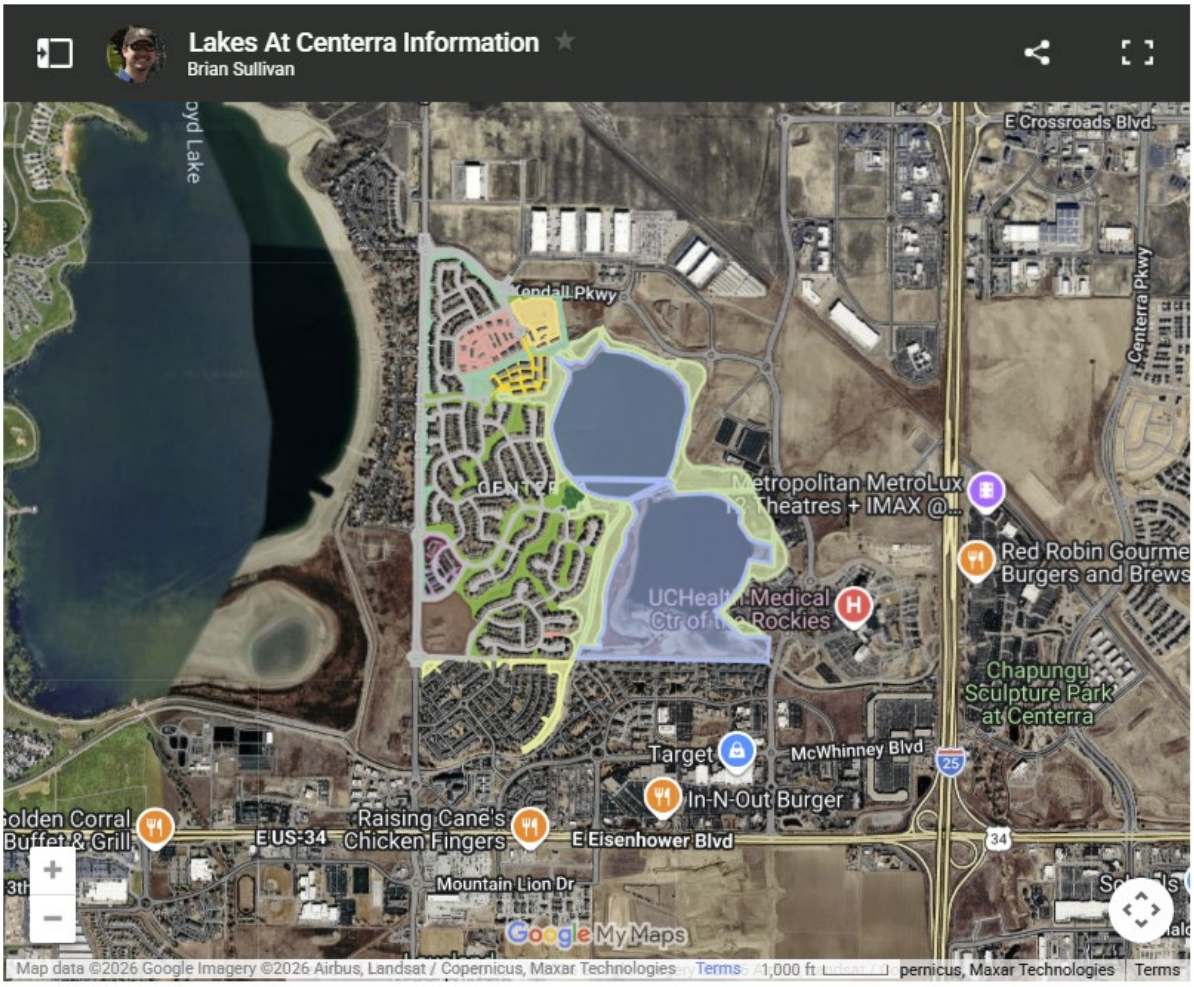
Community Map Instructions

The Lakes at Centerra Community Map's purpose is to provide a quick and easy way to identify the managing organizations and their contact information as it relates to responsibility for land and/or neighborhood assets.

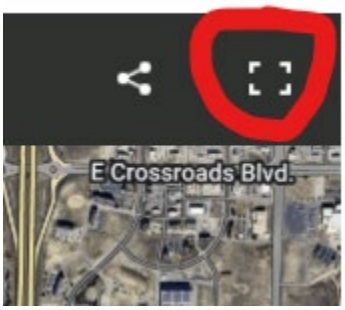
Functional Overview:

Centerra Neighborhood Map

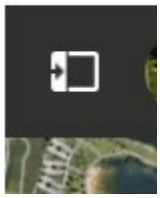


If you are having issues sizing the map, use this link instead

In the Lakesatcenterra.org site, the map will look like the image above. You can open it to a larger page by clicking on the ‘use this link instead’ option at the bottom or clicking on the brackets in the upper right of the map frame.



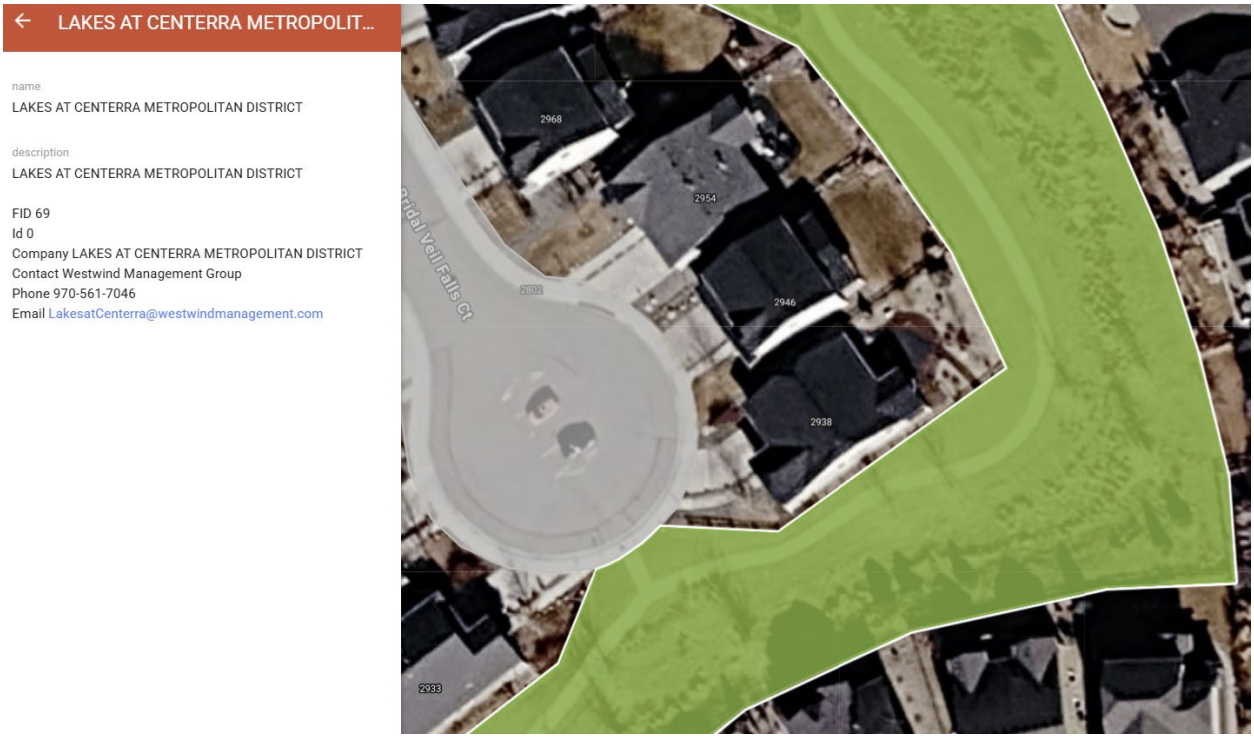
Either on the web site page or when opened in a larger page, in the upper left corner you will see this icon:



Clicking on this will open the ‘Layer’ list of the map. This will show you the legend of the layer currently on (Land Management Information). This will also allow you to turn on or off other layers that are available.

1. Neighborhood Assets
    a. Benches, Dog Stations, Mailboxes, Trashcans, Fishing Sites, Kayak Checkout
2. Land Management Areas
    a. Different management groups for the different sections of land within the neighborhood.
3. Builder Communities and HOA Sub Associations
    a. These are the areas that are designated as legal HOA controlled areas and/or builder communities.

Each asset or boundary area, if you click on it in the map will display a contact name, phone number, and/or email address. This will allow you as the user to find out who to contact in case you have an issue with an area within the Lakes at Centerra neighborhood.



Hints for Best Use:

1. Have one boundary layer on at a time, so you will receive the information for that area that you click on.
2. Contact the Westwind Management Group with any updates or suggested changes.
3. On a PC use your mouse wheel to zoom in or out
4. Use the ‘Larger Map’ version to get the ‘Search’ magnify glass in the upper left, to be able to search addresses on the map.

The Lakes At Centerra neighborhood is a complex patch work of different management groups and organizations. Hopefully this map will aid in identifying who is responsible and who you should contact with issues and/or questions about a specific area or asset.
